The company was formulated with the sole objective to serve the needy human beings and the society at large relating to their education related problems.
AHARG is a company originated keeping in view the ever-expanding demand & needs of educational services. To keep abreast its research and analysis wing provides the latest in this field.

It offers comprehensive range of services for providing educational facilities from concept to commissioning. It is an agency to offer services in a most professional way on Turnkey basis in educational segment.

In India it is observed that there is lack of professional approach to education. Most of the educational centers start without any proper planning and are managed in an unprofessional way. This leads to high cost of the centre and exorbitant cost of treatment resulting in the project being non-viable.
AHARG offers to prove the clientage complete educational consultation services ranging from financing to complete educational plans. Our services include:

- Feasibility Studies
- Strategic Facility
- Master Planning
- Architecture
- Equipment Planning & Procurement
- Interior Design
- Manpower & HRD Policy Planning
- Resource Mobilization & Project Management etc.

For existing Academic Institutions, our services include Performance Improvement, Operations Re-engineering Facility, Restructuring, Expansion and Modernization. Under our extra services, we offer to arrange Joint Ventures, Clinical Collaborations and Management Contracts.
The AHARG is instrumental in procuring Academic Institute furniture, educational materials through its subsidiary agencies.

We have received wide acceptance for our expertise, our innovative ideas and our commitment of delivering quality services at an affordable cost. As a result, we are already associated with leading organizations and educational facility projects valued at over 100 crores.

We are planning a lead role in catalyzing the development of excellent educational facilities and in helping to improve the overall education delivery system in India.
Promoters of educational facilities are often forced to rely on a multitude of various disjointed consultants. In contrast, our multitude of various disjointed consultants. In contrast, our clients have gained significant benefits by securing the services of our "unified team" of experts. We give our clients access to excellent services and have competent staff that handles projects from its concept to commissioning.

AHARG offers a unique and flexible approach in providing a full range of services, which can be either "bundled" or utilized separately. Being constantly driven by owner's perspective, our comprehensive ranges of services are the best.

AHARG is a group of professionals formed from various fields. This group was formed to cater to various sections of Educational & HRD Related services.
The consultation services are diverse in the fields of:

• Setting of Educational Institutions of Turnkey basis.
• Planning of Educational Policies & Educational Services for the employees of Government, Quasi Government, and Private Organizations.
